

Anthanasius is a farmer and father of three from Gozu.

At the conclusion of Tour de Ghana 2025, Anthanasius acquired one of the motorbikes through a microcredit loan from Self-Help International

The tricycle has reduced the burden and challenges of transportation in his community. It enables him to convey farm produce between his home and farm, transport his children to school, help in his irrigation farming and the rearing of animals, support his heavily pregnant wife, and increase his income by eliminating the high costs previously incurred in hiring a tricycle.

"Life will be easy now," says Anthanasius.
